

Concerned with Glass Distortion?

Your Vision. **BUT** You Got This.

We can achieve your vision.

JEBERKOWITZ
ARCHITECTURAL GLASS SINCE 1920

JEB Minimizes Roller-wave Distortion

- Tighter tolerances that exceed industry standards
- Tempering ovens equipped with on-line Osprey® lite measurement systems, to monitor optical distortion
- ISO certified company since 1999, with on-site trained inspectors
- Color tolerance tests using a color photo spectrophotometer
