Designed and Built in California

# THE MOST EFFICIENT WAY TO COAT YOUR GLASS

DFI's FuseCube is the next evolutionary step in low-maintenance coating application technology. Achieve substantial savings and never worry again about backward installations or which side of the glass to coat.

## ≡ Outperform the Competition

Double-sided coating for less than a single-sided price

## ≡ Huge Productivity Gains

15x more throughput - delivering massive process advantages in a small space

## ≡ Unmatched Safety

No spill and spray risks. Zero-emissions process - reducing regulatory concerns

## ≡ Unbelievable Cost Savings

Virtually eliminate all labor and drastically cut material - saving up to 84% in costs

## ≡ Eliminate Human Error

Prevent backward installations and issues with coating the wrong side of the glass

## ≡ Built to Adapt

Flex models starting at 25 lites are modular to grow as you grow

# DFI IS PROMOTING YOUR LONG-TERM SUCCESS

## Maximum Uptime

### Production Peace of Mind.

DFI's patented and market-proven technology - streamlined and automated - delivers the highest quality coating every time. A 3-year/600 run warranty, redundant systems and free proactive routine service calls ensure 24/7 peace of mind.

## Superior Coating

### Easiest-to-Clean Coating. Patented with a Lifetime Warranty.

Increase the value of your glass by offering the easiest-to-clean coating in the industry. And that's just the beginning of the benefits you will experience with Diamon-Fusion® low-maintenance coating.

## Double Protection

### It's Simple. 2 > 1

By coating your glass with DFI's FuseCube, you never have to worry again about coating the wrong side, whether or not the entire surface was coated, or backward installations. Just 360° protection, everytime - guaranteed - at half the cost.

## Marketing Support

### We Become Part of Your Sales Team.

DFI is driving demand to your business through a number of marketing programs and campaigns. From point-of-purchase kits and in-stores sales trainings, to an internet aggregator and online dealer locator. Think of DFI as your marketing arm.

# PROVEN PERFORMANCE

---

"Using the FuseCube, we've treated in only 2 hours what would've taken us 11 hours with our previous manually-applied coatings - utilizing no labor."

- Alfonso Pérez Álvarez, Managing Director, Mamparas Doccia, Sevilla, Spain

"Coating both sides of the glass has been a great differentiator for us by eliminating backward installation errors and significantly reducing handling and transit damage."

- Jim Arnold, President, GLASSource, Grand Haven, MI

"We knew that if we were going to become a premier supplier of custom shower glass in our market, we needed a high-quality coating like Diamon-Fusion. The FuseCube's advantages will definitely help us in that regard."

- Ruby Singh, President, Glassfab Tempering Services, Tracy, CA

"DFI's vapor application is easy to use, effortless to apply and cuts down on time and labor."

- John Spazante, National Sales Manager, Century Bathworks, Woodland Park, NJ

"The FuseCube is working well and the glass looks great."

- Tom Wanamaker, President, Splendor Quality Glass Products, Holland, OH
